Opis kolegija	<p>This course is designed to help young researchers develop qualitative interview and arts-based research projects and reflect on research ethics and challenges in a rapidly changing and digital environment/society. Through practical application, students will be empowered for research projects in the future. Course will offer a theoretical and practical background for conducting qualitative interview in social science research and will offer insights in the participatory arts-based research. The course highlights the importance of specifying a population of interest, an appropriate sampling strategy, and potential approaches to recruitment. It introduces the relationship between the researcher and participant and the practice of reflexivity. Finally, the course provides key examples to highlight the range of possibilities afforded by arts-based research in researching vulnerable social groups. In practical sense, students will learn that art is a form of (transferable) knowledge, which can offer empowerment and change.</p>
Očekivani ishodi učenja na razini kolegija	<ol style="list-style-type: none"> 1. Describe the theoretical background of qualitative interviewing and arts-based research. 2. Explain the researcher's role, reflexivity, and creativity. 3. Discuss ethical considerations and prepare an informed consent. 4. Design, define and prepare a topic list for an inquiry, an appropriate sampling strategy and an interview protocol. 5. Explain qualitative coding and analysis in general. 6. Present a written essay.
